[Details on the Required Information for Proof of Your Bank Account]

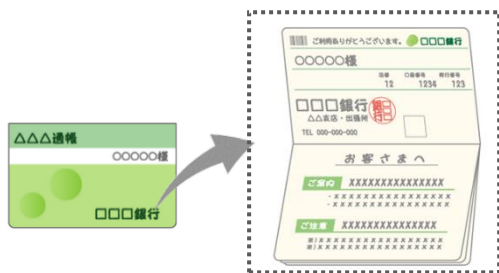

Be sure that the proof of your bank account clearly shows all the required information (A - D) listed on the right.

- A: Financial Institution Name (Code included)
- B: Office Name (Code included)
- C: Bank Account Numbers
- D: Bank Account Holder's Name in Katakana

- * If you do not have a bankbook, or if your bank card does not show your full name because you only use online banking services or your bank account is a checking account, **please prepare a printed version of the bank account details from an online website or mobile app.**
- * Please be careful that if a photocopy of your bankbook or bank card, or a printed version of the bank account details, is blurry or does not show all the required bank account details, your cash benefit payment cannot be processed. The same rule applies if the proof of your bank account does not match the information provided on the application form. In this case, you may be required to submit additional documents.

Bankbook

- Open your bankbook, and get a photocopy of the 1st page and 2nd page.

*There is no need to include any pages showing your balance, bank transfer records, etc.

Bank Card

[Important Points]

- Some people have long names, and a bank card has limited space for characters. This can result in their names being cut off halfway. In such cases, you are required to submit a photocopy of the bankbook, etc.
- If your bank card can be used as a debit or credit card and does not have your name in Katakana, you are required to submit a photocopy of the bankbook, etc.

Bank Account Details from an Online Website and Mobile App

- Visit the official website of your bank and log into your account. Open your bank account details online, then print the page or take a screenshot and print it. This applies to mobile banking apps as well.
- If you choose not to have a bankbook from the standpoint of being eco-friendly, take the same process described above. Please contact your bank if you have trouble finding your bank account details online or on their mobile banking app.
